

## MATHEMATICS

### Place value & Number

Place value within 100,000	Ratio
Roman Numerals	Scale Drawings
Rounding	Numbers to 10,000,000
Numbers to 1,000,000	Algebra, formulae and solving equations
Negative Numbers	Fractions
Number Sequences	
Addition & Subtraction- Inverse Operations	
Multiplication & Division	

## COMPUTING—Kapow Online safety

## RELIGIOUS EDUCATION

### Our topics this term are:

- Family
- Judaism
- Belonging
- Sikhism
- Loving

We study each topic by looking at Jesus' and God's teachings through studying scripture, experience and practices. We look for similarities and differences to gain a better understanding of other faiths. We recognise that everyone's experiences are different and are valued. Children learn from each other by discussing their views and express them through a range of written and practical activities.

## FRENCH

Children revise the learning from the previous year and then move on to time vocabulary and instructions.

## TOPIC (HISTORY and ART) - Ancient Greece

Children continue their learning about Journeys, Civilisation, Invasion and Empire Forces by studying Ancient Greece. Children will learn about:

- Civilisation
- Key people, Gods and Goddesses
- Greek life and achievements
- Impact on the Western World

Linking to our British Values, democracy will be introduced as we will visit the Houses of Parliament.

**ART** links with our topic work, we will be learning about Greek Art and architecture, sculpture and buildings.

We will also be learning about cathedrals.

# Autumn Term Maple Class

## Ancient Greece

## PHYSICAL EDUCATION—Real PE

### Ball Skills

- Co-ordination & Agility
- Reaction and Response

### Gymnastics — Static Balance:

- Seated
- Floor work

### Daily Mile

## MUSIC—Charanga Scheme

Our learning is focused around one song: Livin' On A Prayer, by Bon Jovi

Practicing for the Carol Concert.

## ENGLISH

### Writing & Grammar

Children are learning to use a new way of writing to improve their grasp of vocabulary. The Write Stuff provides a systematic approach to writing guiding children step by step, enabling them to gather vocabulary together, rating the impact of different words ready to use in their sentences.

Grammar is interwoven through the writing of different genres, rather than teaching separately.

Our first text is *The Firework Maker's Daughter* by Philip Pulman.

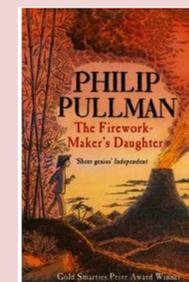

We use this text to deepen our understanding of writing an adventure narrative.

**Spellings** are taught and practiced in class for different classes of words.

### Reading

Children continue to improve their reading by using Accelerated Reader, answering comprehension quizzes before moving on to the next book of their own choice.

A class novel is read each day, ours is 'The Boy at the Back of the Class' by Onjali Rauf.

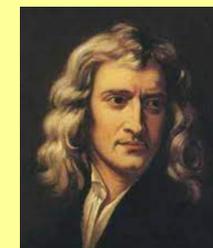

## SCIENCE—Forces

We learn about these forces and investigate how they affect objects:

- Gravity & Sir Isaac Newton
- Air and Water Resistance
- Friction

Children will be looking at the components of simple machines.

## PSHE

- Growth Mindset
- Online Safety (as part of Computing)
- Well Being
- Life to the Full (RSE)

## FOREST SCHOOL

Fridays before Half Term.
